
REUSING ANIMATIONS IN COMPONENTS

FLOATING BUTTON MENU

```
<div class="floating-menu__wrapper">
  <transition name="fade">
    <div
      v-if="menuIsVisible"
      @click="toggleMenu"
      class="floating-menu__overlay"
    ></div>
  </transition>
  <button
    @click="toggleMenu"
    class="floating-menu__button"
    >
    <span class="-visually-hidden">{{ toggleButtonText }}</span>
  </button>

  <a
    v-for="(item, index) in childButtons"
    :key="item.text"
    :href="item.link"
    class="floating-menu__child"
    :style="calculateButtonStyle(index)"
    >
    
```
