Group Transitions

SHUFFLE!

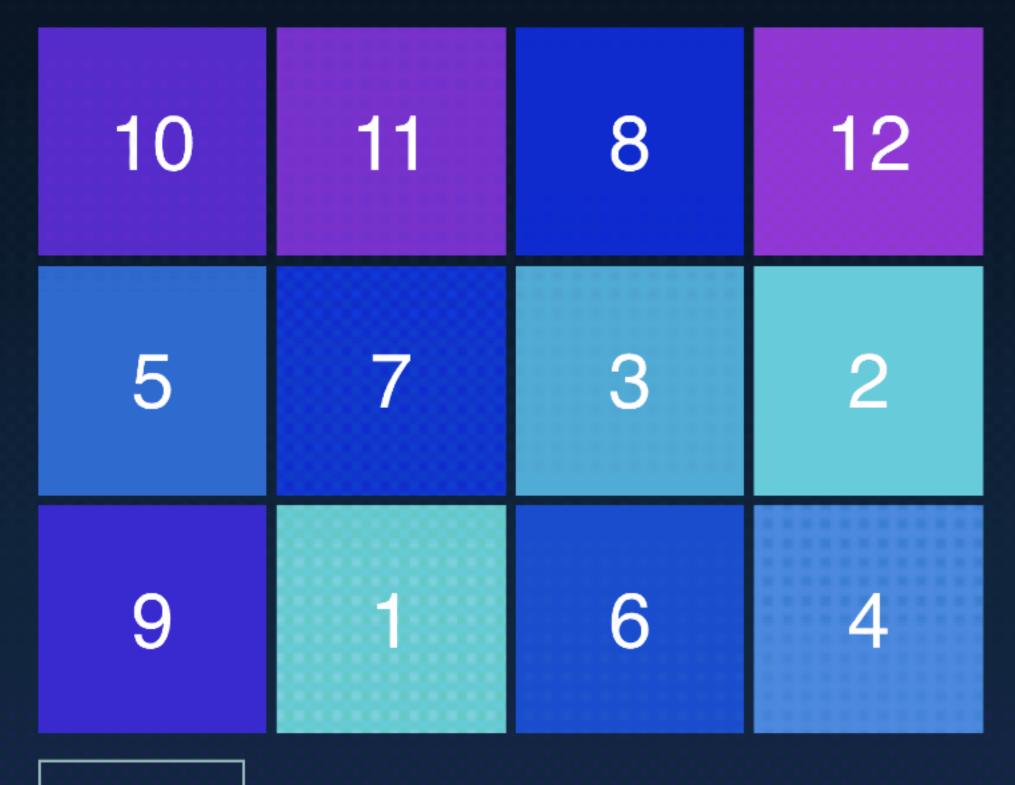

W Grid.vue example2/src/components

```
<template lang="pug">
 2
        div
 3
          transition-group.container(tag='ul')
 4
            li(v-for='n in list', :key='n', :class='`item item-${n}`') {{n}}
 5
          button(@click='shuffleList') Shuffle!
 6
     </template>
 8
     <script>
 9
      import shuffle from 'lodash/shuffle'
10
      export default {
11
        data () {
12
13
          return {
            list: [1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12]
14
15
16
        },
17
18
        methods: {
19
          shuffleList () {
20
            this.list = shuffle(this.list)
21
22
23
      </script>
24
```

```
.item {
 display: flex;
 justify-content: center;
 color: white;
 font-size: 60px;
 font-family: Helvetica, sans-serif;
 text-align: center;
 align-items: center;
 transition: transform 1s cubic-bezier(0.4, 0, 0.2, 1);
 height: 177px;
```
